

Bulk SMS text messaging service sends your text messages

*from any PC with internet access,
to a single cell phone, or in bulk to a list of cell phones,
in just minutes, any time - day or night.*

No software, hardware, phone lines or cellular service required.

Web-based, self-serve system

- Simply use your Web browser to login, maintain lists and send messages.
 - Submit and review your bulk text messaging jobs online 24/7.
-

Lists

- Upload your existing group lists of cell phones, and maintain them online.
 - Archive multiple lists, and select which lists you want to send your message to.
 - Your proprietary lists of cell phone numbers are safe with us. We don't aggregate your lists, nor distribute them in any way.
 - You are automatically informed of Opt-Out requests from recipients.
-

Opt-In system

Let your Patrons/Prospects build your Permission-based Opt-In lists using our SMS short code, saving you the time and expense of registering and setting up a short code. Here's how:

- Online, you can create a Keyword to identify an Opt-In, targeted list.
 - Advertise your Keyword to your customers/prospects via your favorite media.
 - Responding to your marketing, your customers Opt-In by texting your Keyword to our short code, building your Permission-based, Opt-In list for you!
 - You can create multiple Keywords to identify multiple, micro-targeted Opt-In lists.
-

Personalization

- You can automatically merge your recipient names into the body of your outbound text messages - personalizing your message!
-

Scheduling

- You can choose to deliver your bulk text messages immediately -or- schedule them to be automatically delivered at a specific date and time.
-

Reliability

- We are US-based, whereas many competitors are based overseas.
- Unlike most others, we use direct connections to the networks, utilizing SMPP and registered short codes, making our service more reliable.
- You do not need to know the wireless carrier for your cell phone recipients.

- Our service is approved by all major US cell phone networks - if your recipient's network supports text messaging, we can deliver your message from your PC to their cell phone.
-

Experienced, Personal Service

- Are you tired of the impersonal nature of internet services? With our service, you will be assigned a personal representative, with a toll-free number. So you'll be texting on your own - but not alone!
-

Bulk SMS text messaging is great for...

- ... subscription, membership, customer/prospect or survey communications,
- ... time-sensitive alerts to clients, associates, employees or reps,
- ... political action,
- ... Opt-In marketing campaigns, or
- ... Web-generated individual text messages to customers (SMS gateway).

or if you are in any of these Professions:

- ... Emergency First-Responders (Police, Fire, Ambulance)
 - ... Municipal Services (Public Works, Water Works)
 - ... Schools (Closings, Early Dismissals)
 - ... Medical Caregivers (Appointment Reminders)
 - ... Service Providers (Fast Dispatch)
 - ... Banks (Account Holders)
 - ... Recruitment / Temp Agencies / Unions (Job Openings)
 - ... Realtors (New Listings, Sold Contracts)
 - ... Golf clubs and Tennis clubs (Open Time Slots, Tournament Updates)
 - ... Bands, DJ's and Nightclubs (Schedule Announcements, Door Specials)
-

Pricing

- Prices are based on volumes and purchase types: prepaid Ad-hoc purchases -or- automatic monthly debits (discounted) - your choice.
 - Pre-paid credits do not expire - so they're there when you need them, and the monthly plan rolls-over unused credits to the next month.
 - No minimum job requirements - you can send to 1 recipient or thousands.
 - No setup fees or termination fees. Get started for as little as \$45.
-
